APRICOT OIL

INCI: *Prunus armeniaca* Kernel Oil

Apricot oil is very light oil that quickly percolates deep into the skin and provides long-lasting moisturization, makes skin soft and smooth. It consists of vitamins, antioxidants, essential fatty acids and more. Each is unique and beneficial for skin and hair. High content of antioxidants makes it especially strong in protecting, preventing and rejuvenating in all skin types. Apricot oil is also naturally high in Vitamin E which boosts the skin's ability to retain elasticity and clarity by helping to protect cells from damaging free radicals such as environmental pollutants, promoting a more radiant complexion

BENEFITS

- Promote moisture retention in skin & hair
- Reduce the appearance of wrinkles & fine lines
- Protect skin against damage caused by UV radiation
- Stimulate the growth of thicker & stronger hair
- Eliminate dandruff and thereby support hair growth
- Stimulate cells regeneration to keep skin healthy & firm
- Facilitate faster healing of wounds
